### **Main Features**

- Interior of wells with seamlessly laser-welded corners for ease of cleaning.
- Swivelling incoloy armoured heating elements located inside the well can be lifted up for easier cleaning.
- Thermostatic regulation of oil temperature up to a maximum of 185 °C.
- Overheat protection thermostat as standard on all units.
- Oil drains through a tap into a drainage container positioned under the well.
- All major compartments located in front of unit for ease of maintenance.
- IPX5 water resistance certification.
- The special design of the control knob system guarantees against water infiltration.
- Unit delivered with four 50 mm legs in stainless steel as standard (all round Stainless steel kick plates as option).
- Supplied as standard with 4 half size baskets and 1 right and left side doors for cupboard.
- Optional portable oil quality monitoring tool (code 9B8081) for efficient oil management.

### Construction

- All exterior panels in Stainless Steel with Scotch Brite finishing.
- Model has right-angled side edges to allow flush fitting joints between units, eliminating gaps and possible dirt traps.
- Unit is 900mm deep to give a larger working surface area.
